EDUCATION

Massachusetts Institute of Technology, Cambridge, MA

June 2015-August 2020

Woods Hole Oceanographic Institution, Woods Hole, MA

Ph.D., MIT-WHOI Joint Program in Applied Ocean Science & Engineering.

GPA: 4.7/5.0

- Dissertation: "Morphological Approaches To Understanding Antarctic Sea Ice Thickness"

New York University Abu Dhabi, Abu Dhabi, United Arab Emirates

August 2011-May 2015

B.S. cum laude, Physics and Mathematics.

GPA: 3.8/4.0

- New York University Honors Scholar, 2015

- Semester study abroad at NYU Berlin/Humboldt-Universität zu Berlin (Germany), Spring 2013

- Full scholarship, 2011-2015

RESEARCH EXPERIENCE

Graduate Research Assistant, MIT/WHOI

September 2015 - present

- Applied convolutional neural networks to sea ice imagery to infer ice thickness and snow depth from surface topography, reducing error in sea ice thickness estimates from 50% to 20% (PyTorch, OpenCV, AWS EC2)
- Developed textural segmentation algorithm to distinguish different deformed sea ice surfaces (OpenCV, Python)
- Increased amount of snow depth data available to researchers by 10× via textural extrapolation
- Collected sea ice data using surface laser (lidar) scans during 3-month winter fieldwork in Antarctica
- Created an interactive GUI for processing sea ice imagery (image segmentation) with OpenCV and Python

Undergraduate Research Assistant, NYU Abu Dhabi

2013-2015

- Created a method for localizing glacial collapse using signal processing (Fourier transforms, bandpass filtering)
- Visualized spectrograms to distinguish different types of seismicity (Python)

- Mei, M.J., et al. Estimating early-winter Antarctic sea ice thickness from deformed ice morphology. *The Cryosphere* **2019**, 13, 11, 2915-2934. [doi:10.5194/tc-13-2915-2019](https://doi.org/10.5194/tc-13-2915-2019)

TEACHING AND LEADERSHIP EXPERIENCE

12.720 Elements of Modern Oceanography, MIT

Fall 2018

Teaching assistant

- Explained physical oceanography concepts to 25 first-year graduate students with no prior physics experience
- Improved scientific rigor of students research projects with one-on-one feedback

Summer Math Review, WHOI

2017-2018

Organizer and instructor

- Organized courses and assigned instructors for summer math review for ~20 incoming graduate students
- Prepared class notes for and taught ordinary/partial differential equations, data analysis, numerical methods

MIT Badminton Club, MIT

2016-2020

Treasurer 2016-2019, President 2019-2020

- Managed club financials (annual budget \$8000), including equipment ordering and fundraising
- Oversaw player registration, facilities reservations and liaised with sponsors for the Boston Open (2nd-largest badminton tournament in the USA)

OTHER SKILLS

Fluent in English, German, Mandarin Chinese; conversant in Russian

Experienced with Python (numpy/sklearn/PyTorch/Pandas), SQL, AWS, OpenCV, Linux/Unix, bash, Latex
